ANNOUNCEMENT (41)

The New Cyprus Association is deeply concerned at the new oppressive measures directed against the Populist Party of Dr. Alper Orhon. Such actions bring invariably to mind the terrorist activities of T.M.T. and EOKA B. that have been responsible for the death of many Cypriots from both communities. Such extremist, violent and undemocratic acts as the destruction of the Offices of a Political Party can not but expose to dire danger the efforts that we Cypriots expend in safeguarding our independent Republic and in recreating a smooth political climate after the sad events of July 1974.

Acts such as these are summarily condemned by all Cypriots who have love their Country, irrespective of the particular ethnic subdivision from which the victims of such extremist, and racist minorities derive.
